

SALUS

Live in Luxury. Sleep in Style.

Traditional with a Twist

Ever since our first Salus bed was crafted in 2009 we have been obsessed with providing our customers with a deeper, more luxurious sleep. Our products have always enhanced value for money without a sacrifice to the quality of materials used and to standards of innovation, creating better opportunity for your margins and a better product for your customers.

 SALUS

Our newest range is designed to promote 'Homely Warmth' via an eye-appealing look and a soft, supple feel for customers looking to escape from the stresses of today's modern world and treat their bedroom as a place of restoration and familiar well-being.

Our latest innovative Foams introduce Aero-Cloud, Aero-Flow and Cloud Copper Technology, all designed to enhance freshness, eliminate odours, regulate temperature and recover more quickly, ultimately creating a layer of unparalleled comfort that adapts to you.

 SALUS

Our newest Foam Technology is more environmentally friendly, enhancing performance and helping to ensure a healthier, more complete sleep.

Flex Pocket Springs line the core and vary between firmer and more traditional feels, ensuring you get the feel and support you need to sleep luxuriously and awake refreshed.

Introducing

Cloud Copper Memory Foam

- Adapts to your body's micro pressure points
- Helps to regulate temperature for a cooler sleep
- Improves posture & core support
- Helps to regulate moisture & odour
- A cleaner, more luxurious sleep
